

12 June 2019

Renowned Ophthalmologist, Professor William Sponsel, Joins Eye Co's Scientific Advisory Board.

The Board of Eye Co is delighted to announce the appointment of Professor William Sponsel to its **Scientific Advisory Board (SAB)**.

Eye Co, an early stage developer of innovative therapeutics for the treatment of ophthalmic diseases is dependent on the expertise and guidance of its highly qualified multi-disciplinary SAB.

Professor Sponsel is driven to help save people's eyesight. After establishing the Glaucoma Research and Diagnostic Laboratory at Indiana University in 1991, he was recruited to the University of Texas Health Science Centre at San Antonio in 1994, where he became Professor and Director of Clinical Research. He has been key-note lecturer at hundreds of scientific meetings worldwide, has won numerous honours, authored numerous papers and has been regularly listed among *The Best Doctors in America* over the past 20 years.

He is presently Professor of Vision Sciences at Incarnate Word University, Texas and Adjunct Professor of Biomedical Engineering at University of Texas.

Professor Philip Penfold, Eye Co's Chief Scientist said : "We are delighted that an ophthalmologist of the calibre of Professor Sponsel has agreed to join our Scientific Advisory Board and we look forward to making use of his expertise and drive as we continue to develop our technologies designed to eradicate world blindness"

Your sincerely,

Peter Abrahamson
Managing Director
